SET – II

Instrcutions :

- a Create the Tables and insert the data as follows
- b Include the primary key & foreign key relations.
- c Primary keys: sailor_id,boat_id,marina_id,reserve_id
- d Foreign keys: sailor_id,boat_id,marina_id from Reserves table.

Sailors

Table:

sailor_id	sailor_name	sailor_age	rating
s101	John	25	8
s102	Jane	28	9
s103	Michael	22	6
s104	Emily	31	3
s105	David	29	4

Boats Table:

boat_id	boat_name	color
b201	Sea Queen	Blue
b202	Windstar	White
b203	Sea Rider	Red
b204	Oceanic	Green
b205	Sun Sail	Yellow
b206	Moon lite	Blue

Marinas

Table:

marina_id	marina_name	location
m301	Bay Harbor	Coastal
m302	Lakeview	Inland
m303	Port Breeze	Coastal
m304	Cove Haven	Inland
m305	Sunset Bay	Coastal

Reserves

Table:

reserve_id	sailor_id	boat_id	marina_id	reserve_date
r401	s101	b201	m301	2023-08-20
r402	s102	b202	m302	2023-08-22
r403	s103	b203	m303	2023-08-23
r404	s104	b204	m304	2023-08-21
r405	s105	b205	m305	2023-08-24
r406	s101	b203	m304	2023-08-28

Instructions : Write ALL SQL Queries

- d.1 Display the sailor names and the count of reservations they have made.
- d.2 Display boat names that are not reserved by any sailor
- d.3 Display the sailor names who have reserved a boat that is not Blue in color.
- d.4 Retrieve the sailor names who have reserved a boat at the marina 'Cove Haven' and are older than 26.
- d.5 List the sailor names and their ratings who have made at least two reservations.
- d.6 For each boat which was reserved by at least 2 sailors with age ≥ 20 , find the boat id and the age of such sailors.
- d.7 Find the names of sailors who have reserved boats with colors that are not reserved by any other sailor, and list them alphabetically.
- d.8 Display the sailor names who reserved a boat in Lakeview marina.
